Students may take one online course at a time. When one course is completed, meet with the counselor to register for an additional course. Courses open Aug 18 and enrollment closes April 1.

<u>Course Name</u>	Which Quarter?	New Credit \$0	Grade Replacement \$30 non-refundable non-waivable each time system is opened to process

Is an online course the right choice for you?

- Each quarter is approximately 30 hours of instruction, study, testing, practice.
- The proctored assessments must be taken at a Granite Testing Center location; not from home.
- Some courses have projects that will require up to 30 days to complete--so compressing the class into a short time period may not be possible.
- Most courses have tasks that include writing, reading, discussions, essays, quizzes and performances--just like a regular class.
- Students have to pace themselves to keep on top of their online course + regular school classes
- It is HIGHLY recommended that students complete at the same pace as face-to-face classes
- Granite Online is NOT NCAA approved.
- Granite Online is Regents Scholarship approved EXCEPT Biology.

Terms and Agreement

- Courses are supplementary, optional courses beyond a regular schedule course
- **Students who go 10 school days with zero activity will be dropped**
- Courses require internet access/computer/specific software
- Each school year online course is .25 credit and is approximately 30 hours of work
- **All coursework and exams must be complete by MAY 6, 2022-Courses END May 6. EXCEPT Driver Ed--see teacher for details.**
- Students must check the feedback and comments from instructors to ensure their work is being accepted and graded accurately.
